

## MISSION STATEMENT

The Council's primary purpose is to provide a simple recognition and accreditation system, for distinguishing quality post secondary education including vocational education, distance education, adult and continuing education.

In response to increasing globalisation of world economies and societies, the system aims to have a global rather than national focus.

The Council and individual members will promote the system, through a web site, liaison with professional bodies internationally, and by facilitating joint venture promotions between interested members.

In order to minimise member fees, administration costs, bureaucracy and overlap with other professional bodies, the scope of activity of this Council will be strictly limited to the management of the recognition and accreditation system and the promotion of the system and participating colleges.
